AUDIT PLANNING

[illegible]

HOSPITAL Sample Hospital**June 30, 2014****AUDIT STRATEGY**

The attached audit strategy is to be used to document the following:

- Auditor's understanding of certain preliminary information regarding the Hospital and its environment for planning the audit.
- Auditor's fraud risk assessment, including identification of fraud risk factors.
- Identification of material account balances and classes of transactions.
- Determination of the risk of material misstatement at the financial statement and relevant assertion levels.
- Auditor's response to the risks identified.
- Identification of the federal programs.
- Determination of major federal programs and the applicable common requirements.
- Applicability of account balances and classes of transactions to federal programs.

HOSPITAL Sample Hospital**June 30, 2014****AUDIT STRATEGY**

PROCEDURE	YES	NO	REMARKS
1. Did the prior year report on the financial statements include departures from an unmodified opinion?			
2. Did the prior year audit identify any significant deficiencies or material weaknesses?			
3. Have various account balances or transactions required significant adjustments in prior audits?			
4. Was the approach in the prior year primarily substantive?			
5. Were any significant errors or instances of fraud noted in the prior audit?			
6. Is there any indication there could be substantial doubt about the Hospital's ability to continue as a going concern?			
7. Does the audit require special expertise?			
8. Are specialized skills needed to determine the effect of IT on the audit, to understand the IT controls or to design tests of controls?			
9. Are there any new accounting and/or auditing pronouncements that may affect the current audit?			
10. Are there any specialized accounting practices or principles applicable to the Hospital? (i.e. pensions)			
11. Have there been any significant changes in accounting practices for the Hospital?			
12. Are there any economic conditions or recent developments affecting the Hospital's operations? (inflation, interest rates, technological changes)			
13. Do any special regulatory or reporting requirements apply? (Single Audit)			
14. Is the Hospital economically dependent on a major industry or company such that a change in the industry or company would adversely affect the Hospital?			
15. Has there been a change in funding, including federal funds, that would significantly impact the operations of the Hospital?			
16. Is any aspect of the Hospital profit motivated?			
17. Have there been any significant changes in the functions or responsibilities of the Hospital?			
18. Do the financial statements require use of significant accounting estimates or fair value determinations?			
19. Does the Hospital have multiple locations for significant operations?

PROCEDURES	DONE BY	REMARKS
<p>20. Complete the fraud risk assessment form.</p> <p>21. Document the following on the audit strategy form:</p> <ul style="list-style-type: none"> a. Identify material account balances and classes of transactions. Consider preliminary planning materiality as well as qualitative matters such as volume of transactions, susceptibility of assets to theft, etc. b. Assess the inherent risk by assertion for each of the material account balances and classes of transactions identified above and document the results. c. Assess control risk. d. Considering the understanding obtained of the Hospital (including its environment and internal controls) and the determination of inherent and control risks, assess the risks of material misstatement (whether due to fraud or error) at the financial statement and relevant assertion levels and assess detection risk. e. Document overall responses to the risks identified and the design of further audit procedures (audit approach). f. If Single Audit is applicable, identify the major federal programs using the Single Audit – Audit Strategy form. g. Identify material account balances and classes of transactions applicable to major federal programs. h. Identify the common requirements applicable to each major federal program. i. Indicate whether test of controls are applicable or comment on whether controls do not exist or cannot be tested. <p>22. Identify other matters considered in determining the audit strategy.</p> <p>23. Identify any matters that could increase the risk of material misstatement of the financial statements due to errors, fraud and other non-compliance.</p>

RISK ASSESSMENT**I. BRAINSTORMING CONFERENCE**

Date: _____

Instructions: Members of the audit team are required to discuss the susceptibility of the Hospital's financial statements to material misstatement due to fraud or error. The discussion should include an open exchange of ideas (brainstorming). The discussion should also emphasize the importance of exercising professional skepticism throughout the audit. The discussion may occur prior to, or in conjunction with, other audit planning procedures, but should take place each year.

If the audit is a Single Audit, completion of this procedure should include consideration of both the audit of the financial statements and the federal awards.

Audit of financial statements	Yes	_____	No	_____
Single Audit	Yes	_____	No	_____

Participants:

1. Describe how the discussion occurred (e.g. face-to-face meeting, conference call).

2. Describe the matters discussed.

HOSPITAL _____ **Sample Hospital****June 30, 2014****AUDIT STRATEGY**
RISK ASSESSMENT

Matters that should be discussed include:

- a. How and where the financial statements might be materially misstated due to fraud or error.
- b. How management could perpetrate and conceal fraudulent financial reporting.
- c. How the perpetrators could misappropriate Hospital assets.
- d. Known external and internal factors affecting the Hospital that might (1) create incentives/pressures to commit fraud, (2) provide the opportunity for fraud to take place and (3) reveal attitudes or rationalization about why fraud is acceptable behavior.
- e. Circumstances indicative of earnings management or manipulation of other financial measures which could lead to fraudulent financial reporting?
- f. The nature and risk of management override of controls.
- g. How best to respond to these fraud and other risks through the design of audit procedures.
- h. The importance of maintaining an appropriate attitude of professional skepticism throughout the audit when considering the risk of material misstatement due to fraud.
- i. Risks of material misstatements associated with related party relationships and transactions.

The discussion should not be influenced by past favorable experience with the integrity of management.

The discussion should abandon neutrality and presume the possibility of dishonesty at various levels of management.

The discussion should focus on the financial statement areas vulnerable to fraud presuming management, employees or volunteers were inclined to perpetrate fraud.

3. Did information arise during the brainstorming meeting which may be relevant to identifying risks of material misstatement due to fraud or error?

_____ Yes (Document on Part IV)

_____ No

RISK ASSESSMENT**II. INQUIRIES ABOUT THE RISKS OF FRAUD**

Instructions: Auditors are required to make inquiries of **management** and others about the risks of fraud. Inquiries should be made each year in the planning stage of the audit. This form can be used to document the auditor's inquiries of management and other employees. Conducting one-on-one interviews with members of management and other employees is the most appropriate way of accomplishing the objectives of the inquiry process. Management interviewed should include, at a minimum, all those who sign the management representation letter.

If the audit is a Single Audit, completion of this procedure should include consideration of both the audit of the financial statements and the federal awards. Alternatively, the auditor may wish to complete separate forms.

(A separate form should be used for each person interviewed)

2. Do any conditions create adverse relationships between the Hospital and employees with access to cash or other assets susceptible to theft, such as the following:				
a. Known or anticipated future employee layoffs?				
b. Recent or anticipated changes to employee compensation or benefit plans?				
c. Promotions, compensation or other rewards inconsistent with expectations?				
B. Opportunities				
1. Does the Hospital maintain or process large amounts of cash?				
2. Is the Hospital's inventory easily susceptible to misappropriation (such as small size, high value or high demand)?				
3. Does the Hospital have assets easily convertible to cash (such as bearer bonds, etc.)?				
4. Does the Hospital have capital assets easily susceptible to misappropriation (such as small size, portability, marketability, lack of ownership identification, etc.)?				
5. Is the Hospital susceptible to fraudulent, unauthorized disbursements (such as vendor or payroll disbursements) being made in amounts material to the financial statements?				
6. Is there a lack of management oversight over assets susceptible to misappropriation?				
7. Does the Hospital lack job applicant screening procedures when hiring employees with access to assets susceptible to misappropriation?				
8. Does the Hospital have inadequate record keeping over assets susceptible to misappropriation?				
9. Is there a lack of appropriate segregation of duties which is not mitigated by other factors (such as management oversight)?

HOSPITAL Sample Hospital**June 30, 2014****AUDIT STRATEGY**
RISK ASSESSMENT**IV. RESPONSE TO RISKS**

The way the auditor responds to the risks identified during the risk assessment process depends on the nature and significance of the risks identified and on the Hospital's programs and controls to address such risks. The auditor should take into account the various risk assessment procedures performed, including preliminary analytical procedures, brainstorming session, information obtained about the Hospital and its environment, including internal controls, fraud risk considerations and any other sources providing information about relevant risks. For single audits, the auditor should consider the risk noncompliance may cause the financial statements to contain a material misstatement. Auditors respond to the results of the risk assessment in three ways: (1) an overall response as to how the audit is conducted, (2) specific responses involving modification of the nature, timing and extent of procedures to be performed and (3) responses to further address the fraud risk of management override of controls.

1. *Overall response to financial statement risks* – Describe overall risks at the financial statement level that may affect many assertions and the planned response to identified risks. Examples of overall risks include weaknesses in the control environment, changes in management, motivation by management to fraudulently misstate the financial statements, etc. Appropriate responses may include (1) assignment of personnel and supervision, (2) scrutiny of management's selection and application of significant accounting principles and (3) including an element of unpredictability in audit procedures and tests.

--

2. *Specific responses to risks* – If any risks are considered significant, the risk and the auditor's response to the risk should be included in the risk assessment summary form. For less significant risks, describe your specific responses, if any, to identified risks, including modification of the nature, timing and extent of audit procedures.

--

HOSPITAL _____ **Sample Hospital**

AUDIT STRATEGY
RISK ASSESSMENT

3. *Response to address management override of controls* – Because management override of controls can occur in unpredictable ways, the risk of management override of controls is always an identified fraud risk and the auditor is required to perform certain specified procedures to respond to such risk. These procedures relate to (1) examining journal entries and other adjustments, (2) reviewing accounting estimates for biases and (3) evaluating the business rationale for significant unusual transactions.

HOSPITAL Sample Hospital**June 30, 2014****AUDIT STRATEGY**
SINGLE AUDIT

- 1) Determine Type A vs. Type B programs using the Program Identification form.
- 2) Determine the risk classification of Type A and primary Type B programs using the Risk Assessment form. The auditor is not required to perform a risk assessment of relatively small Type B programs.
- 3) Identify major programs and determine if the percentage of coverage rule has been met using the bottom of the Determination of Major Programs form.

Major programs must account for at least 50% of total federal awards expended unless the Hospital is low-risk, in which case only 25% needs to be met.* The Hospital is considered low risk if, for each of the prior two years, all of the following conditions have been met:

- A Single Audit is performed on an annual basis.
- Unmodified opinions on the financial statements and the Schedule of Expenditures of Federal Awards were issued**
- No material weaknesses in internal control under the requirements of Government Auditing Standards (relating to the financial statements) were noted.**
- No internal control deficiencies identified as material weaknesses were noted for all Type A programs.
- No material non-compliance was noted for all Type A programs.
- There were no known or likely questioned costs exceeding 5% of the program's expenditures for all Type A programs.
- The prior two years audits must have met the report submission requirements of OMB Circular A-133 (reports were submitted to the federal audit clearinghouse by March 31).

*The Hospital may have one or more non low-risk Type A programs and still qualify as low-risk, as long as all Type A programs meet the criteria listed. However, all non low-risk Type A programs must be audited as major programs even if the 25% rule of coverage is met by only a portion of the non low-risk Type A programs.

**However, a waiver allowing the Hospital to be identified as low-risk may be provided by the cognizant or oversight agency if it judges an opinion modification or any identified material weaknesses does not affect the management of federal awards.

Overall Risk Analysis:

Low Risk (Type A or B Programs)						
Non-Low Risk (Type A Programs Only)						
High Risk (Type B Programs Only)						

(1) - This criteria must be met in order to consider a Type A program low-risk.

(2) - Auditors should use their judgment. Audit findings from prior year do not preclude the program from being low risk.

** - A-133 states in part that for a Type A program to be considered low-risk, it shall have been audited as a major program in at least one of the two most recent audit periods.
This ensures that all Type A programs are tested as major at least once every three years.

Note: Except for known significant deficiencies or material weaknesses in internal control or compliance problems, a single criteria would seldom cause a Type B program to be considered high-risk.

HOSPITAL Sample Hospital**June 30, 2014**

SINGLE AUDIT
AUDIT STRATEGY
DETERMINATION OF MAJOR PROGRAMS

In order to determine major programs, complete the following steps:

- Enter Type A programs and their risk analysis from the Risk Evaluation form. For non low-risk programs only, enter their percentage of total federal expenditures (from the Program Identification form) in the far right column. If there are no low-risk Type A programs, then determine if total percentage of non low-risk Type A programs exceeds the percent of coverage rule. If it exceeds the minimum percentage required, the determination of major programs is complete.
- Enter Type B programs and their risk analysis from the Risk Evaluation form. Select at least half of the high risk Type B programs (may limit the number selected to the number of low-risk Type A programs). For each high-risk Type B program selected, enter its percentage of total federal expenditures (from the Program Identification form) in the far right column. When identifying which high-risk Type B programs to test as major, the auditor is encouraged to use an approach which provides an opportunity for different high-risk Type B programs to be audited as major over a period of time.
- Determine if the total percentages from these two steps exceed the percent of coverage rule. If it exceeds the minimum percentage required, then the determination of major programs is complete. If the minimum percentage is not met, include additional programs as necessary to meet the percentage of coverage rule.
- For each major program, document the inherent risk from the previous page. If a risk assessment was not required, determine the inherent risk based on the criteria from the previous page.

SINGLE AUDIT RISK ASSESSMENT**INHERENT RISK FACTORS:**

1. Little or no changes in the compliance requirements.
2. Compliance requirements added or significantly changed.
3. Program characteristics do not involve a high amount of risk.
4. Program characteristics involve risk, such as a significant amount of contracting, use of subrecipients or OMB designated program as higher risk, including programs with Recovery Act funds.
5. High level of independent review/oversight.
6. Little or no independent review/oversight.
7. Relatively simply compliance requirements.
8. Compliance requirements are complex, such as calculations and eligibility determinations are complex, require a high degree of judgment or are difficult to audit.
9. Personnel are experienced and competent.
10. Personnel are inexperienced, poorly trained or lack competence.
11. Administration is centralized.
12. Decentralized administration with multiple locations or branches.
13. Prior audits included insignificant no compliance findings.
14. Prior audits included significant compliance findings.

The auditor should consider whether any risks identified are pervasive to the Hospital's compliance because they may affect the Hospital's compliance with many compliance requirements. If the auditor identifies risks of material noncompliance pervasive to the Hospital's compliance, the auditor should develop an overall response to such risks. Examples of situations in which there may be risk of material noncompliance pervasive to the Hospital's noncompliance are as follows:

- A Hospital experiencing financial difficulty and for which there is an increased risk grant funds will be diverted for unauthorized purposes.
- A Hospital with a history of poor recordkeeping for its government programs.

HOSPITAL Sample Hospital**June 30, 2014****NONAUDIT SERVICES**

CONCLUSION: We have evaluated the nonaudit services to be provided to the Hospital both individually and in the aggregate. We have determined the nonaudit services are not prohibited services and do not involve undertaking management responsibilities as described in Government Auditing Standards.

We have evaluated and documented all significant threats and applied safeguards to eliminate or reduce any significant threat(s) to an acceptable level. We have evaluated the SKE of the individual designated by the Hospital to oversee the nonaudit services and determined they are suitable in the circumstances. We have documented and met the requirements for performing nonaudit services under paragraphs 3.37 and 3.39 of the 2011 Yellow Book.

Based on the foregoing, we may provide the nonaudit services described herein and remain independent with respect to the Hospital.

PROCEDURE	OBJ.	DONE BY	W/P REF	N/A	REMARKS
Audit Objective and related assertion:					
A. Provide a document which links the report or financial statements to supporting workpapers (12).					
Audit Procedures:					
A. Obtain or prepare working trial balances by fund type, fund, function and object class as needed. If prepared by auditor, determine independence will not be impaired.	A				
1. A separate trial balance should be prepared for each fund.					
2. Account classifications should be minimized and consistent with the GASB Codification and/or the sample report.					
3. Foot the working trial balances to verify their accuracy, if applicable.					
4. Document the source of the information for the beginning balance amounts.	A				
B. Record, as necessary, accrual activity and adjusting journal entries.					
1. The adjusting journal entries should be consolidated on a separate page, numbered, briefly explained or described and referenced to supporting workpapers.					
2. Obtain Hospital concurrence for adjusting journal entries.					
3. Reconcile reversing journal entries with prior year report.	A				
C. Record reclassifications as necessary.					
1. The reclassification entries should be consolidated on a separate page, lettered, briefly explained or described and referenced to supporting workpapers if possible.					
2. Determine amounts due to/from Agency Funds are eliminated and recorded as cash adjustments.					
3. Inform the Hospital of all reclassifications it should be cognizant of and receive its concurrence.	A				
D. Reference the amounts to supporting workpapers. (The adjusted trial balance amounts should be referenced to supporting workpapers.)					
E. Prepare closing entries for each fund.					
F. Prepare a cashflow worksheet reconciling the changes in assets, liabilities and fund equity and the operating statement activity to the cash flows. Reference the amounts on the cashflow worksheet(s) to supporting workpapers.					

TRIAL BALANCES

PROCEDURE	OBJ.	DONE BY	W/P REF	N/A	REMARKS
G. Reconcile the Hospital's June 30 GAAP basis annual financial report to revenues, expenditures and fund balances per the trial balances.	A				
H. Examine journal entries and other adjustments made directly to financial statements. (AU 240.32 and AU 330.21)					
1. Identify and test the appropriateness of significant adjustments made in the preparation of the financial statements.					
2. Scan the journal entries throughout the period under audit and determine if testing is necessary. Document the items selected, if any.					
I. Record full accrual entries for the entity-wide statements.	A				
1. The entries should be briefly explained or described and referenced to supporting workpapers. Information should be sufficient to prepare a reconciliation between the fund financial statements and the entity-wide financial statements.					
2. Reconcile reversing journal entries with prior year report.					
3. Review receipt classifications for proper reporting in the entity-wide statements.					
4. Obtain Hospital concurrence for full accrual journal entries to ensure auditor's independence.					
<u>ALTERNATE/ADDITIONAL PROCEDURES:</u>					
<u>CONCLUSION:</u>					
We have performed procedures sufficient to achieve the audit objectives for trial balances and the results of these procedures are adequately documented in the accompanying workpapers.

Audit Objectives and Related Assertions:					
A. Claims paid are recorded correctly as to account, amount and period and are disbursed in accordance with the Hospital's policies and procedures for claims settlement. (5,6,7,8)					
B. Reserves for claim losses represent a reasonable estimate of the Hospital's liability for claims filed and incurred but not reported (IBNR) claims. (1,2,3,4)					
C. Insurance (self-insurance) revenues, operating transfers, expenditures, assets, liabilities and fund equity are properly classified and described in the fund financial statements and related disclosures are adequate. (9,10,11,12,13)					
D. The Hospital has complied with applicable laws and regulations.					
Audit Procedures:					
A. Inquire about the Hospital's policies and procedures for administering and financing insurance claims, including whether insurance policies are carried for complete coverage of some or all risks or only for excess liabilities.					
B. Prepare a workpaper to summarize amount and type of significant coverage. Review coverage to: 1. Determine if reasonable and current. 2. Determine significant areas in which risk is retained.	C				
C. Verify and review surety bond and malpractice coverage for adequacy and reasonableness for all officials and employees.	D				
D. If a separate Insurance Fund has been established, consider analytical procedures, such as comparing claims expenditures and other fund transactions (i.e. employee contributions, insurance premiums and administrative fees) to the prior period actual and relate to the number of covered employees (if applicable).	A				
E. Review charges by the Insurance Fund to other funds and determine if they are in accordance with GASB 10 (GASB Codification, Section C50.121-126): 1. May use any method to allocate loss expenditures/expenses to other funds of the Hospital. Transactions constituting reimbursements to the Unrestricted Fund for expenditures/expenses initially made from it that are properly applicable to another fund should be reported as expenditures or expenses in the reimbursing fund and as reductions of the expenditure/expense in the Unrestricted Fund. However, if the total amount charged to other funds, including charges to the Unrestricted Current Fund, exceeds claims expenditures, the excess should be reported as non-mandatory transfers.	A

<p>I. Summarize and evaluate misstatements noted during the audit, if any.</p> <p>1. Determine whether uncorrected misstatements are material, individually or in the aggregate. Consider the following: (AU 450.11)</p> <p>a. the size and nature of the misstatements, both in relation to particular classes of transactions, account balances or disclosures and the financial statements as a whole, and the particular circumstances of their occurrence and,</p> <p>b. the effect of uncorrected misstatements related to prior periods on the relevant classes of transactions, account balances or disclosures and the financial statements as a whole.</p> <p>2. In communicating misstatements to management, the auditor should: (AU 450.07-.10)</p> <p>a. Request management examine the entire class of transactions, account balances or disclosures to identify and correct misstatements in cases where the auditor evaluates the amount of likely misstatement from a sample as material.</p> <p>b. Request management review the assumptions and methods used in developing management's estimate in those cases where the auditor has identified a likely misstatement involving differences in estimates used by management.</p> <p>c. Reevaluate the amount of likely misstatement after management has performed a. and b. above.</p> <p>d. Obtain an understanding of management's reasons for not making corrections of known or likely misstatements and take into account when evaluating if the misstatement is material.</p>	B				
J. Document the reconciliation of the financial statements to accounting records.	C				
K. Obtain the Hospital's concurrence on proposed adjusting journal entries.					
L. Indicate whether there could be substantial doubt about the Hospital's ability to continue as a going concern. (AU 570)	D				
M. Determine and document the type of opinion rendered for each opinion unit and on compliance, if applicable. Document reasons for variances from an unmodified opinion and discuss the reasons with those charged with governance.	C,D

HOSPITAL Sample Hospital**June 30, 2014****SIGNIFICANT FINDINGS
FROM THE AUDIT**

IN ATTENDANCE:

<u>Hospital</u>		<u>Auditor</u>	
Name	Title	Name	Title

The auditor should communicate significant findings from the audit with those charged with governance, including the following matters (AU 250.21, AU 260.12 through AU 260.14)

(A) Accounting Policies

Significant accounting policies used by the Hospital are described in Note 1 to the financial statements. Except as noted below, no new accounting policies were adopted and the application of existing policies was not changed during the fiscal year. Except as noted below, we noted no instances where an otherwise acceptable accounting practice is not appropriate to the circumstances of the Hospital.

Exceptions:

(B) Accounting Estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility future events affecting them may differ significantly from those expected. We evaluated key factors and assumptions used in the significant estimates used by the Hospital in determining the reasonableness in relation to the financial statements taken as a whole.

List significant estimates:

(C) Difficulties Encountered in Performing the Audit

Except as noted below, we encountered no significant difficulties in dealing with management in performing and completing the audit.

Exceptions:

HOSPITAL Sample Hospital**June 30, 2014****SIGNIFICANT FINDINGS**
FROM THE AUDIT**(D) Nonaudit Services**

We have met the requirements for performing nonaudit services under paragraphs 3.37 and 3.39 of the 2011 Yellow Book. Except as noted below, no nonaudit services were performed.

Exceptions:

(E) Uncorrected Misstatements

We have provided management with a listing of all uncorrected misstatements identified during the audit in the management representation letter. In our judgment, none of the uncorrected misstatements, either individually or in the aggregate, indicate matters that could have a significant effect on the Hospital's financial reporting process.

(F) Disagreements with Management

Professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting or auditing matter that could be significant to the financial statements or the auditor's report. Except as noted below, no such disagreements arose during the course of our audit.

Exceptions:

(G) Corrected Misstatements

The following corrected misstatements were brought to the attention of management as a result of the audit procedures performed:

(H) Consultation with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If consultation involves application of an accounting principle to the Hospital's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine the consultant has all the relevant facts. Except as noted below, there were no such consultations with other accountants.

Exceptions:

SIGNIFICANT FINDINGS
FROM THE AUDIT

(I) Significant Issues

Significant issues arising from the audit that were discussed, or were the subject of correspondence, with management.

List any significant issues:

(J) Comments

We have provided our written comments and recommendations regarding the Hospital's financial statements and operations, including matters involving noncompliance with laws and regulations.

HOSPITAL Sample Hospital**June 30, 2014****ITEMS FOR COMMENT-
INTERNAL CONTROL**

The following guidance should be used by the auditor to evaluate the control deficiencies identified (AU 265):

Deficiency in Internal Control – exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis.

Significant Deficiency – a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Material Weakness – a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility a material misstatement of the financial statements will not be prevented or detected and corrected on a timely basis.

Reasonable Possibility – exists when the likelihood of the event is either reasonably possible (chance of future event or events occurring is more than remote but less than likely) or probable (future event or events are likely to occur).

Magnitude – refers to the extent of the misstatement that could have occurred, or actually occurred, since misstatements include both potential and actual misstatements.

Factors that affect the magnitude of a misstatement that might result from a deficiency or deficiencies include, but are not limited to, the following:

- The financial statement amounts or total of transactions exposed to the deficiency.
- The volume of activity (in the current period or expected in future periods) in the account or class of transactions exposed to the deficiency.

Risk factors affect whether there is a reasonable possibility a deficiency, or a combination of deficiencies, will result in a misstatement of any account balance or disclosure. The factors include, but are not limited to, the following:

- The nature of the financial statement accounts, classes of transactions, disclosures and assertions involved.
- The cause and frequency of the exceptions detected as a result of the deficiency, or deficiencies, in internal control.
- The susceptibility of the related asset or liability to loss or fraud.
- The subjectivity, complexity or extent of judgment required to determine the amount involved.
- The interaction or relationship of the control(s) with other controls.
- The interaction with other deficiencies in internal control.
- The possible future consequences of the deficiency, or deficiencies, in internal control.
- The importance of the controls to the financial reporting process.

ITEMS FOR COMMENT- INTERNAL CONTROL

[illegible]

C = Deficiency is less severe than a material weakness, yet merits attention of those charged with governance

When evaluating the above internal controls deficiencies (D/C):

- 1) (AU 265.09) Did the auditor determine whether multiple deficiencies which affect the same significant account or disclosure, relevant assertion, or component of internal control (if applicable), may, in combination, constitute a significant deficiency or a material weakness? _____ Yes
- 2) (AU 265.10) For a deficiency or combination of deficiencies not considered a material weakness by the auditor, did the auditor consider whether prudent officials having knowledge of the same facts or circumstances, would likely reach the same conclusion? _____ Yes

QUESTION	YES	NO	N/A
<ol style="list-style-type: none"> 1. Was the scope of our audit in accordance with our audit plan? 2. Have you informed the Manager of all identified problems and internal control weaknesses that resulted in significant modification in the audit program and have you obtained the Manager's concurrence with the modifications? 3. Have you gathered enough evidence to satisfy the audit program requirements? 4. Are you satisfied the evidence gathered does not disclose suspicion of abuse, fraud, violations of statutory, regulatory and contractual provisions or other illegal acts other than those noted in the statutory comments of the report? 5. Are you satisfied we have a reasonable basis for the expression of an opinion on each opinion unit and the workpaper documentation supports the opinions we are expressing on the financial statements? 6. Are you satisfied with the results of the limited procedures performed for required supplementary information (RSI), supplementary information and other information, if applicable? 7. Are you satisfied there is not substantial doubt about the Hospital's ability to continue as a going concern, or if there is substantial doubt, the appropriate disclosures were made and an explanatory paragraph was included in the Independent Auditor's Report. 8. Are you satisfied we have a reasonable basis for and the workpapers support our statement in the Independent Auditor's Report on Compliance for instances of non-compliance required to be reported under <u>Government Auditing Standards</u>? 9. Are you satisfied we have a reasonable basis for expressing an opinion on the Hospital's compliance with the listed requirements applicable to major Federal programs? 10. Are you satisfied we have obtained an adequate understanding of the design of internal controls, determined whether these controls have been implemented and assessed control risk? 11. Are you satisfied we have reduced the detection risk to a reasonable level? 12. Have all applicable items on the audit planning, questionnaires and audit program been completed and workpapers properly indexed and signed or initialed by those doing the work? 13.
